

## CRISTIANO PORQUEDDU

In every age there are painters, writers, poets, sculptors and musicians who stand out because of their outstanding abilities. Cristiano Porqueddu is one of those. His abilities are truly those of a titan. He conceives enormous artistic projects of amazing scope and size, and possesses the volcanic energies and skills – physical and mental - with which he brings them to a brilliant and artistically high level of realisation. His sparkling and - apparently limitless - awe inspiring technical ability is a phenomenon of the age, a level that very few ever achieve. He is unique among his peers and destined to achieve the highest peaks: a bright star in our midst.
